2

It is my honor to introduce the third Healing Code Card deck in the series: The Energy Deck.

The Healing Code Cards: Body Deck (Special Edition) was the first deck to introduce 44 cards altogether. Now, the Energy Deck also contains 44 living cards and is a unique spiritual healing technology. They contain the essence of Spirit/Source energy and are imbued into each card While I am in an altered state of consciousness. In this state, I command the Spirit/Source energy through affirmations depositing those commands

3

directly into the sacred geometry contained upon each card. This geometry acts as a container holding the Spirit/Source energy permanently into each Healing Code card.

These cards do not need to be energetically cleaned in any way. The Spirit/Source energy is a permanent charge, and if each card is completely intact, it will work exactly as designed.

The role of the Energy Deck is somewhat different from the earlier series (Body and Mind Deck). It works to purify, optimize and strengthen not

4

just the physical body, but also the mental and emotional bodies as well. The Body and Mind decks could be seen as detoxification decks, whereas the Energy deck focuses more on strengthening, purifying and rejuvenating whomever uses it.

The Energy Deck would also have the greatest arrangement of unique cards that are very different from the two previous Healing Code Card decks. The Energy Deck's first two cards, for example, work directly with your body's living prana helping to repair and rejuvenate any area of your body. This is a

5

unique pairing of cards that I will get more into shortly.

The Energy Deck also focuses more on “capturing” the vibration of living frequencies that are directly imbued into the sacred geometry of the deck. Such examples of this can be found in the PEMF Integrator and the Tree Life Force Integrator. Captured vibrational frequencies contained directly into the cards, enhanced and optimized for the purest delivery of living frequencies that will aid and assist your body in its natural healing.

6

This instruction booklet will give you a brief overview on the type of cards included within this deck and how to use them. The process is astoundingly simple, and it brings profound results when you use these cards daily.

First off, you can use as many cards within the deck as you like daily if the energies within the cards are not overwhelming you. Some people are highly sensitive to energies, and if you are one of them, please take it slow and work with one card each day. If you are feeling overwhelmed energetically, put the cards aside, drink a glass of

water and ground yourself by walking in nature, sitting by a tree, perform deep-breath meditation or use earthing mats/technology to assist. Your body needs time to process the energy you're receiving, so be sure to give yourself the time you need if you are sensitive.

How to Use the Cards

All cards, except for the Positive Polarity Charger, Negative Polarity Receiver and Conflict Energy Container Cards (explained below), works in the same flow to deliver the Spirit/Source

8

healing codes directly into your body emotionally, mentally, and physically.

Working with the Energy Deck cards involves restoring your body back to optimal health as blockages/obstructions within the living prana of your body are purified and optimized in letting your body run its natural course of healing to improve your health overall.

There are four types of methods that you can use either by themselves or together when working with the Healing Code Cards. The

choice is yours as all three work equally well.

The first method is known as the “**Gazing Method.**” When using the card of your choosing, hold the card up approximately one foot (12 inches) from your face. Focus on the center of the card as you gaze at it for a total of 60 seconds. 60 seconds is the minimum amount of time needed for the healing codes to enter your body’s energy field. This is known as the “60 second rule”.

The second method is known as the “**Charging Method.**” Using the 60 second rule, lean your card(s) over a cup of water, juice, tea, etc. The cup can be of any material. After 60 seconds, remove the card(s) and sip your beverage. You can place multiple cards around the cup. As you sip, the healing codes enter your body and deliver immediately into the area(s) of the body targeted.

The third method is known as the “**Body Method.**” This involves taking card(s) and

placing them anywhere upon your body (Head, neck, chest, abdomen, etc.) Keep them upon your body for at least 60 seconds, or you can keep them on for even longer if you wish.

The fourth method is the “**Capture Method**” where you can place a photo of yourself face down on the card image, and instantly, the healing codes within the card will go to work upon the hologram contained in the photo. This can also work for distance healing involving others as you use their photo to provide

them with the healing codes effect from the Healing Code Cards. However, out of courtesy and respect, it is recommended to inform others that you are performing distance healing on them with the cards beforehand.

Talking to the Cards

Yes, the cards have their own spiritual intelligence. As I mentioned earlier, the cards are alive. You can communicate with the cards either vocally within your mind or aloud instructing them on what you would like a particular card to

do for you. For example, you may want the Liver Purifier card to work only on your gall bladder. Or the Large Intestine Purifier to work only on your colon. Communicate this directly to the card as you gaze at its center and then use any of the four methods of your choosing for the Healing Codes to go to work. As I mentioned above, there are certain cards in the Energy Deck that do not work with all four methods due to their orientation. Please read on to discover more regarding this.

About the Cards

Before going any further, I recommend you visit www.healingcodecards.com to discover more detailed information regarding the contents of each Energy Deck card, watch tutorials and review testimonials from our customers. You can also download free sample cards that are available on our website.

Card Layout:

The Healing Code Cards: Energy Deck contains 44 cards. These cards include:

15

1 Charger Card

1 Receiver Card

31 Purifier Cards

6 Integrator Cards

1 Container Card

4 Amplifier Cards

**Positive Polarity Collector &
Negative Polarity Receiver**

This pair of cards are the most unique cards out of all three series of the Healing Code Card decks.

The Positive Polarity Collector works to receive living prana through your solar plexus area of the body. It has been programmed to imbue the

16

residual living prana within the solar plexus and transfer into the Negative Polarity Receiver flipping its polarity to integrate the living prana collected into an area of the body where the Negative Polarity Receiver has been replaced.

The Negative Polarity Receiver can be placed anywhere on the body of your choosing. The Positive Polarity Collector **MUST** be placed on your solar plexus (stomach area) in order for the pairing of cards to function properly.

These two cards are only compatible with the “Body

Method” meaning you can only use these cards in printed form to have physically placed on the body for them to operate. They do not work with the Gazing method, Charge method or the Capture method. Only the Body method can be used with these two cards.

You can keep these two cards on your body for as long as you wish. In fact, the longer, the better as your body will reap the benefits of having living prana distributed in areas of your body where the living prana is in low supply. This means that your body will have overall improved

circulation in the area(s) that greatly require it.

For added protection, you can use plastic wrap or Ziplock bags to further guard both cards as they will be used frequently upon the body. The plastic will not in any way affect the integrity or operation of the Healing Code Cards.

Purifier Cards

Brain Purifier

Sensory Purifier

Spinal Purifier

Thyroid Purifier

Thymus Purifier

Heart Purifier

Pericardium Purifier

Lungs Purifier

Liver Purifier

Stomach Purifier

Pancreas Purifier

Spleen Purifier

Kidney Purifier

Small Intestine Purifier

Large Intestine Purifier

Reproductive Purifier

Skin Purifier

Bodily System Purifier

Joint Purifier

Cellular Body Purifier

Musculoskeletal Purifier

Red Ray Purifier

Orange Ray Purifier

Yellow Ray Purifier

Green Ray Purifier

Aqua Ray Purifier

Blue Ray Purifier

Violet Ray Purifier

Subtle Body Purifier

Sleep Purifier

Food & Drink Purifier

The Purifier cards can be used by working with any of the four methods mentioned previously: Gazing, Charging, Body, and Capture methods. Using

any of the four methods, work with the cards for a minimum of 60 seconds so your body can receive the minimal amount of healing codes naturally imbued within your prana to bring you tremendous subtle healing benefits.

Color Ray Purifiers

The bodily purifiers are pretty self explanatory as they work on the organs, glands and bodily systems of the body. The Color Ray Purifier cards work on a deeper etheric level

as they function in cleansing the color frequencies of your body on an etheric level. Every organ and even every cell and your body operate on a particular color ray frequency based on its function and orientation within the body. Work with the Color Ray Purifiers brings and extra cleansing to the areas of your body that work naturally within these color frequencies. The Red Ray Purifier, for example, works well with the heart and small intestine and even with the red blood cells of the body. For more info on

how each Color Ray Purifier helps your body, visit our website and go to the Energy Deck's "**Contents of Energy Deck Cards**" page in the Nav menu.

Integrator Cards

Multivitamin Integrator

PEMF Integrator

Pyramid Torsion Integrator

Tree Life Force Integrator

Amethyst Crystal Integrator

Shungite Crystal Integrator

Selenite Crystal Integrator

The Integrator cards work with living prana in association to a complimentary healing effect

within the body. For example, the Multivitamin Integrator works to purify and enhance minerals/nutrients that are already within your body increasing their potency and delivering a nutritional benefit to you overtime through frequent usage of the card.

The PEMF Integrator, for example, captures the Pulsed Electromagnetic Field from PEMF technology and delivers the pure, optimized frequency directly into your body on a subtle level through frequent usage of the card.

There are also crystal integrator cards for those of you who are crystal healers or simply crystal admirers. This works by having a amethyst, shungite or selenite crystal placed upon or near your body to purify, optimize and enhance its living prana and integrating it on a subtle level into your body to receive the benefits from the natural crystals themselves with a serious boost from the Healing Code Cards.

Conflict Energy Container

This is another unique card that only works with the **Capture**

method. The other methods will not work with this card.

To use this card, write on a small piece of paper any single conflict that you want to have released from yourself: be it physical, emotional, or mental in nature. Keep the conflict you write on the paper simple in nature: like a short sentence.

“Clear away my headache”
“Remove my financial lack” or
“Eliminate my guilt” for
example.

Once you have your written command, fold the paper so that it is small enough to be

placed on the center of the card. Place it upon the center of the card and let the Conflict Energy Container go to work. Check back with it within about 24 hours and see how you feel afterwards.

Remember, the Conflict Energy Container should be used only for what you are willing to personally let go of. If you are still feeding a fear for example, the Conflict Energy Container will be unable to release it. This is where a short meditation on what you are willing to let go of should commence firstly before using this card. Forgive yourself

and the conflict first knowing you can imagine it released from you, and this can then lead to working with the Conflict Energy Container.

Amplifier Cards

5x Amplifier

10x Amplifier

20x Amplifier

30x Amplifier

These cards work on every card (One card at a time) to give it a greater amplification effect. To use, place the desired Amplifier card directly BEHIND the single card of your choosing to deliver an automatic amplification

effect. These cards are programmed to work with only one card at a time. The Amplifier cards should not be used if you're highly sensitive energetically to the Healing Code Cards in their natural state.

It's recommended for Amplifier Cards to be used in printed form for best results. They can, however; be used on a digital device if a printed Healing Code card is placed overtop of the display screen to receive the amplification effect.

Final Note

The Healing Code Cards: Energy Deck is an additional tool for your healing journey. They are not intended to replace your doctor or health practitioner. They are therapeutic in nature and can lend a helping hand in helping to build a sound body and mind through both the Healing Code Card decks: Body and Mind.

The Healing Code Cards are designed to assist in compliment with adults, children, animals, and with some cards, they can also be used on plant life. For young children and animals, I would

recommend working with the “Charging Method” so that they may receive the full effect of the healing codes.

Feedback on the Healing Code Cards: Energy Deck is always welcome. You can email us through our Contact page on our website:

www.HealingCodeCards.com

Thank you for your purchase of the Healing Code Cards: Energy Deck. The more that you are willing to use them each day will lead to greater assistance in bringing your physical, mental and emotional body into greater

32

health and wellness. I wish you well on your healing journey.

With Love and Appreciation,

Brad Johnson
